

Technology Time!

Dear Parents/Carers,

As we all know our homes today are filled with technology, from tvs to dvd players, digital cameras and camcorders, laptops, computers, tablets and mobile phones. The list is endless!

Here in school we are really interested to know how your children use technology at home, and would really appreciate it if you could jot down below what they use and how they use it. For example, can they use a laptop or tablet to find a game to play on the internet? Or can they use a mobile phone to take a photograph?

Thank you for your time.
