

## **Sport Premium 2015-16 (£9761)**

### **Sport Premium Overview**

The government has provided additional funding since 2013 to improve provision of physical education (PE) and sport in primary schools. The government has committed to the sports premium funding until 2020, with the amount doubling from September 2017.

### **Impact of Sports Premium 2015-16**

We are committed to using this resource in developing high quality PE lessons, alongside greater opportunities for sporting competitions, better playtimes and increased opportunities to take part in physical activity for all our young people.

The impact of this grant on sport at Pudsey Bolton Royd this year has been huge, with very high numbers of children having opportunities to represent the school at events ranging from KS1 Athletics to Y6 netball. Also there were very high numbers of children attending after-school sports and/or physical activity clubs. Sport enjoys a high profile at the school and the grant has enabled us to develop our sports teaching within school and increase involvement culminating in achieving our re-validation of the Healthy Schools award. Next year's target is based on improving physical fitness for all, including the staff.

£5478 of the Sports Premium was spent on top up swimming lessons for Year 4 plus £1400 bus transport to and from the pool. The cohort had started their curriculum swimming lessons half way through Year 3, but only 6.8% could swim 25 metres unaided. After an extra term and a half of lessons, this figure rose to 64.4% which is above the national figure of 55%.

£1410 was spent on buying in football coaches from Next Generation Football Academy. Boys and girls in years 3, 4 and 5 were offered these clubs and they were over-subscribed. Football is our weakest competitive sport so I am hoping to see the benefits this year and in the forthcoming years.

78% of children in KS2 attended a sport of physical activity after school club this year.

£1000 was spent on the Active Schools service level agreement. This enables staff to have access to training opportunities and continued professional development. £1500 was also spent on joining the Priesthorpe Partnership which organises training, tournaments, inter school festivals and competitive city wide sport.

### **Competitive Sports**

We had a fantastic year in netball. The girls' team won the partnership competition and came second in the area final. The mixed netball team also came second in the area competition. For the first time, we entered the Under 11 Fulneck Cup Competition run by a local private school which we won.

The Year 6 football team had their best ever year. They played in several partnership tournaments and won two matches in the Under 11 Fulneck Cup.

The Year 4 tennis team just missed out a place in the area final, but the Year 5 team got through to the area final and came 4<sup>th</sup>.

For the first time, the Priesthorpe Partnership offered a Sports Hall Athletics competition for Key Stage 1 to which we sent a team as well as sending a team to the Key Stage 2 competition. In the summer term children from Year 1 to Year 6 competed in the Mini Olympics at John Charles Centre for Sport. Our Year 3 and 4 team came first out of 13 schools and overall we came in 3<sup>rd</sup> place which is our best result for over 4 years.

The Year 6 boys' cricket team came fourth in the partnership tournament and the Year 4 mixed team came seventh in the Drax Cup cricket tournament.

£330 was spent on providing transport to and from competitive sports events.

### **Physical Activity**

We paid £475 for coaches from Skipping School to deliver sessions to Years 2 and 4 and we using the skills they taught us, we entered two competitions. Both year groups did really well, winning gold, silver and bronze medals and the Year 4 team got through to the Leeds final. This gave many children who are not traditionally sporty to chance to represent our school and succeed in an inter school competition. It also increased the popularity and uptake of skipping at both playtimes and lunchtimes.

Our Learning Mentor attended Wake up Shake Up training and Wake Up Shake Up was delivered to the whole school at the end of every dinner time and every day in Breakfast Club. The children devised their own routines in Wake Up Shake Up Club which were then shared with the rest of the school. Pudsey Bolton Royd entered two teams into their first Wake Up Shake Up competition at Leeds West Academy where the children performed on the stage in the theatre.

Change for Life clubs were offered to selected children throughout the year which engaged some of the least active children in the school. These were run by the Learning Mentor and young leaders from Year 5.

£35 was spent signing up for the Rio Skills Drills Challenge. This was offered to children throughout the school in the summer term both in their PE lessons and during lunchtimes via the Sports Leaders. It tied in with the Olympics and offered the children opportunities to participate in cross curricular PE eg Year 2 taught maths through the Rio Skills Drills scheme.

Our Sports Leaders scheme continued this year with Year 6 taking on new activities such as sitting volleyball which tied in with the Paralympic Games and teaching these activities to the rest of the school at lunchtimes.

A confirmation of the massive impact Sports Premium is having on our school is the re-validation of our Healthy Schools award in June 2016 and being awarded the School Games Mark Gold Award in September 2016.

**Proposed spending of Sports Premium 2016-17 (£9780)**

Active Schools £1300

Priesthorpe Sports Partnership £2000

Sports Coaches £2170

Skipping School £475

Fitness coaches £700

Staff CPD £350

Camp craft £100

Transport to competitive sporting events £400

Sports Leader playground equipment £100

Sports Ambassador badges £27

PE resources and equipment £100

**Contingency £2000 to be spent in Spring and Summer Terms 2017 on future priorities**
