

At Pudsey Bolton Royd Primary School, our vision is to give children a Science curriculum which enables our students to explore and discover the world around them confidently so that they have a deeper understanding of the world we live in. We realise that young children are naturally curious and passionate about learning; we provide a stimulating Science curriculum that nurtures children's natural curiosity. Through hands-on, enquiry-based activities, children will experience the joy of learning 'how' and 'why'. We believe that these opportunities and experiences provide children in our School with the understanding of why Science is relevant to their lives now and how it will continue to be relevant in the future.
